

HiMate SMART WATCH

User Manual
Version 1.1

Getting Started

Welcome to use our HiMate, this is a smart watch which can help you reach your sport goals.

The package includes:

- HiMate smart watch
- User Manual
- Charging cable

Setting up your HiMate

First download & install the app CO-FIT, and create an account to make sure the watch can synchronize the data it collects with the app. The app is where you can set goals, analyze your goals, see historical trends and keep up with friends, and much more. connecting smart watch through mobile phone

CO-FIT APP supports the operating system of iOS 11.0 and Android 5.0, as well as Bluetooth 5.1. It is available for more than 150 mobile devices.

1. Turn on Bluetooth on the watch and mobile.

2. Download APP: CO-FIT

APP Store: CO-FIT

Google Play: CO-FIT

- After install the App, register and log in account according to a series of instructions.
- Continue following the onscreen instructions to connect or pair your smart watch to your mobile device. Pairing make sure that the watch and mobile device can communicate with each other(sync their data). Open APP>Device> Add a new device>Choose HiMate.
- Select the Bluetooth name HiMate with the strongest signal from the list. Then the watch will show pairing notification, click to confirm pairing.
- Then you will see the Bluetooth icon on the right top on the watch is blue and you have connected the Bluetooth 5.1.

2

(You need to use Android 5.0+ or iOS 11.0+ and above and the watch can only be paired with one mobile phone. To pair other mobile phones, please unbind the current one before pairing.)

Quik Fit Strap

HiMate contains two parts(watch body and wristband), you can purchase separately strap and switch as your preference.

Charging instructions

Charging:

- Turn the watch over, align and attach the charging pins to the magnets gold prongs. You will see the charging icon on the watch screen after 5s.
- Charging fully may take 2 hours. you will see the battery icon is full if the watch have been fully charged.
- Please clean the charge interface before charging for fear that the remaining sweat erode gold metal contact or other risks.

Troubleshooting

Heart-rate signal missing

The HiMate smart watch keeps paying attention to your heart rate data during your exercise and your daily life. Sometime the watch may not get a suitable heart rate signal. At this time, the missing heart rate data will appear at the dotted line.

If you can't get the heart rate signal, first you should confirm that you wear the watch correctly, adjust it to avoid being too high or too low, neither too tight or too loose on your wrist. After adjustment, turn on real-time heart rate monitoring to get the data.

If there is still no heart rate data, check if the heart rate monitoring function is turned on at CO-FIT APP Other problems.

If your mobile cannot pair the watch, click Settings - Bluetooth in your mobile and check if there is signal of HiMate.

If yes, it means there is no problem with the Bluetooth signal. Please check if the watch is paired with other phones, please unbind it. iOS device users should click Setting - Bluetooth - ignore this device and then pair it.

Exemption Clause

- The Hear Rate and Blood Pressure data output by HiMate are not intended to be a medical or diagnostic basis.
- Self-diagnosis and self-treatment are dangerous. Only qualified physicians are allowed to diagnose and treat high blood pressure or any other heart diseases. Please contact your physician for more professional diagnostic opinions.
