

# QUICK STARTING GUIDE

## WIRELESS MICROPHONE DEVI

1

Plug the Lightning/USB C receiver into your phone and the red light will turn on, and will stay on throughout the use

2

Press the switch on button on the microphone to activate it.

!

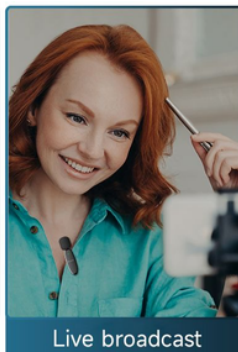

If the indicator is flickering and does not stay steadily on, then the microphone and the receiver have not been paired. Reset both devices by clicking quickly twice both their reset buttons.

3

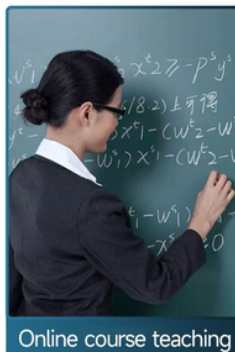

The microphone is ready to use when the indicator of the microphone and the receiver flash steadily.
